

## ::: HARDENER MEKP + PIPETTE KIT

### *Description:*

Is a liquid, highly flammable hardener based on methyl ethyl ketone peroxide for use with polyester and vinyl ester resin. Should never be used in direct combination with cobalt (accelerator) to avoid an explosive reaction. Available in a 100 g blister pack with a measuring pipette.

### *Application:*

Extremely suitable as a hardener for the GTS casting resin, as this hardener is more UV-stable and therefore does not or hardly yellow. Also suitable for gel and topcoats that come into contact with water.

### *Data on delivery:*

Color:	colourless
Viscosity:	20 mPas
Mass density:	approx. 1.2 g/cm <sup>3</sup>
Shelf life:	6 months in closed packaging
Consistency:	liquid

### *Technical data:*

Consumption:	1-3%
Shore:	not applicable

### *Processing:*

Always mix the resin before adding the hardener. Afterwards add 1-3% of hardener. Try to avoid air bubbles during mixing.

### *Safety:*

Always provide appropriate protective clothing and gloves. Avoid prolonged skin contact. Cleaning agent for tools: cleaner M (environmentally friendly substitute for acetone).
