

## :: POLISH S2 EXTRA SHINE HOLOGRAM REMOVER

### *Description:*

Is a liquid polishing emulsion for shining and glossing a surface consisting of polyester, epoxy, polyurethane and other surfaces. Very suitable as final treatment after using the SL Premium one step, cut & high gloss. Available in 500 gr packing.

### *Application:*

As a deep cleaner for polyester, epoxy and polyurethane. Can also be used on plexiglas and PE-plastics. Gives extra high gloss and removes polishing effects.

### *Data on delivery:*

Color:	turquoise
Viscosity:	7 mm <sup>2</sup> /s (40°C)
Mass density:	approx. 1.0
Shelf life:	gr/cm <sup>3</sup>
Consistency:	24 months

### *Technical*

<i>data:</i>	Depends on subsoil
<i>Consumption:</i>	not applicable
<i>Shore:</i>	2/10
<i>Abrasiveness:</i>	10/10

### *Processing:*

Always ensure a dry and grease-free surface. Can be applied with a microfibre cloth. Thoroughly polish with rotating movements and light pressure. Repeat this process if necessary. Can best be processed mechanically, but be careful not to use too high a speed (max. 2000 TPM with a polishing fleece).

After treatment, you can treat the surface with the SL S4 Protect wax or the SL S5 Quick wax for long-term protection.

### *Safety:*

Always wear suitable gloves and protective clothing. Keep out of reach of children. Cleaning agent for tools: water and soap.
